Uygulama ve Araştırma Merkezi

Metallurgical and Materials Engineering Master & Ph.D. Program

Join the NBUAM Team

- ★ There are **2 master** and **2 PhD** students quota (**1 international PhD quota**).
- ★ Candidates who graduated from Material, Biomedical, Mechanical, Bioengineering & Mechatronics Engineering and Biology, Chemistry, Physics department are expected to apply.
- ★ In this program students will join biomaterials studies, especially Tissue and bone engineering using 3D printers and electrospinning methods.
- ★ They will also work in our state-of-the-art facilities.
- ★ Application will be online and open in June 2020 for further information please visit <https://fbe.marmara.edu.tr/en> or email ucemogu@gmail.com
